Consigne de sécurité :

Vérifiez régulièrement que toutes les vis et tous les moyens de fixation sont bien serrés et resserrez-les si nécessaire. IMPORTANTE - LEGGERE ATTENTAMENTE! - CONSERVARE PER FUTURI RIFERIMENTI

Il fasciatoio sarà utilizzato come tale, solo se è assemblato per intero!

Siamo lieti che abbiate scelto Pinolino! Abbiamo prodotto questo articolo con grande cura e secondo i severi requisiti delle norme di sicurezza europee. Leggere attentamente le istruzioni di montaggio e verificare che le parti fornite siano complete. L'uso o il montaggio improprio, e in particolare le modifiche alla costruzione, invalidano la garanzia.

Consigli per la sicurezza:

Controllare regolarmente che tutte le viti e gli elementi di fissaggio siano serrati e, se necessario, stringerli. Non utilizzare questo articolo se tutti i componenti non sono montati e regolati correttamente, se qualche parte è difettosa, strappata o mancante. Utilizzare solo accessori e ricambi originali. I sacchetti di plastica e tutti gli elementi/imballaggi in plastica devono essere rimossi immediatamente o tenuti fuori dalla portata dei bambini! Durante il montaggio, posizionare una base adeguata sotto i componenti per proteggere il prodotto e il pavimento da eventuali danni. Per evitare di danneggiare il prodotto, non utilizzare un cacciavite a batteria per avvitare i raccordi. Prestare attenzione al rischio di fiamme libere e di altre fonti di calore intenso nelle immediate vicinanze dell'apparecchiatura di confezionamento, come stufe elettriche, forni a gas, ecc. Utilizzare un fasciatoio di 85 x 75 cm e fissarlo al fasciatoio con nastro biadesivo o velcro autoadesivo. Per un utilizzo sicuro del prodotto, l'unità di cambio deve essere fissata alla parete. Il fissaggio utilizzato deve essere adatto alla vostra parete; chiedete consiglio a un negozio specializzato. Il fasciatoio è adatto a bambini fino a 15 kg.

Attenzione:

- Non lasciate il bambino incustodito.

Avviso sul prodotto:
